

A Legacy Driven Life: Live a Legacy to Leave a Legacy

Dash To Infinity! Every human being has an immense latent potential and is genetically engineered for success. However, for the potential to be realized, one needs a definite goal or purpose. Sadly, today a vast majority of the world population lacks a definite purpose in life. A legacy provides the definite purpose to individuals and acts as a north star and a lighthouse, keeping us on a steady path through the ups and downs of life. Leaving a legacy is not an afterthought or an accident. Leaving a legacy requires one to live a legacy driven life. Today as we experience global economic and social upheaval on an unprecedented scale, there is an immediate need for all corporate and national leaders to learn how to lead a legacy driven life themselves and encourage their teams to design and live their own personal legacies to ensure accelerated growth of individuals, corporations and nations. This book is very unique as it provides a step-by-step formula of creating a gold-standard legacy by utilizing the V-Factor or the immense energy which comes from using the Power of Visualization. Using this special formula and the inspiration from interviews with some amazing individuals, we all can learn to lead a legacy driven life of higher purpose, and leave a legacy of positive thoughts, positive words and positive actions for our future generations.
