

Plastic and Reconstructive Surgery (Springer Specialist Surgery Series)

Due to the multidisciplinary approach presentation of the basic plastic surgery knowledge with adjustment to new technologies, the book targets not only plastic surgeons but also hand, microsurgeons, hand and neck specialists, and breast surgeons. It will be of great interest to young surgeons in training for fast comprehensive overview of plastic surgery when preparing for board exams as well as envision the future of new surgical technologies and make the decision on their sub-specialty choice.
