

Dermatologic Surgery: Textbook and Atlas

This superbly illustrated text-atlas comprehensively demonstrates all surgical procedures involving the skin and subcutaneous tissues as well as structures in the skin. Case studies systematically review, explain and demonstrate every critical step in common procedures, from pre-operative evaluation to post-operative follow-up. Both dermatologists and plastic surgeons alike will benefit from the 2,100+ high-quality, full-colour illustrations. The brilliantly clear line drawings were commissioned especially for this book and are supported by an instructive commentary featuring practical tips and technical pointers. For daily reference in the operating theatre.
