It should be read by everybody by nonbelievers and by believers by rabbis and priests by old people and by young people. Its not a difficult book, and its not a zillion pages either. Its in the perfect sense, simply a books book, if you know what I mean. Its about thee question a question that has haunted and plagued mankind since the very beginning of time. Hey, my old friend the storyteller, is just an average guy like you or like me. He lived in Kansas, had a wonderful family, a terrific job, lots of friends and loads of dreams. Then, suddenly, out of nowhere, in a six-month period, in the 34th year of his young life, or as many seconds as 34 years would come to, it all came crashing to a dead halt. My old friends name is Walter, not Wally and for sure, not junior. And best he can, as he tells his story, he tries real hard to answer that question thee question. Is there? or isnt there?
