

## You are Magnificent!!

A book of inspiration, to help others who have suffered from abuse and depression in their life. It is written by a woman who has experienced these things and has come through the other side. The book shows you how to love yourself and to become a happier person through experiences that have helped her and ways of thinking that has transformed her life. These are easy things to do that really work. It is not a self-help book. This book is just to inspire and to try to make your life a little happier. It is to show how your life could be happier and to share her experiences with you so you know you are not on your own. That she is with you every step of the way on the start of your new and happier life.
