

Presenting with Credibility: Practical Tools and Techniques for Effective Presentations

Credibility is the most important aspect of presenting. If you don't have credibility as a presenter, people will not believe your message and they will not buy your product, support your project or adopt your idea. Whether you are an executive, manager or teacher, this book will give you all the techniques you need to present with credibility. In a concise, easy to follow format, you will learn how to have presence and dynamism as a speaker and how to speak with authenticity. From knowing how to capture an audience in the first 2 minutes of your presentation, to speaking before an audience of senior executives or delivering a keynote, Presenting with Credibility is packed with hundreds of practical tips as well as inspiration. In today's fast-paced, competitive economy, those who can present an idea with clarity and persuade others, stand out from the crowd. Mastering the wealth of techniques outlined in this book will give you that extra edge.
