

Robinson Secundus: Robinson in Christian Latin (Latin Edition)

A father sits under a tree with his children and tells them the story of Robinson Crusoe. The children learn not only the story but in a series of conversations discover what is moral behavior and where Robinson went wrong. The story is told from a Christian perspective and helps the children come nearer to God. The book combines all the original excitement and adventure with many conversations about sundry issues that provide an excellent opportunity to practice Latin. A pukka classic from www.arepo.biz
