

## Large Scale Systems: Theory and Applications, 1986 : Selected Papers from the 4th Ifac/Ifors Symposium, Zurich, Switzerland 26-29 August, 1986 (I F a C Symposia Series)

This volume deals with production and management planning, decision making and control using large scale systems. Computer modelling systems and their applications - such as transport, communication and information and energy systems - are discussed, and future trends examined to give an up-to-date account of systems theory today.
