

# The Textbook of Pharmaceutical Medicine

The Textbook of Pharmaceutical Medicine is a standard reference for all those working in pharmaceutical medicine and the recognised text for the UK Faculty of Pharmaceutical Medicine Diploma. This is a comprehensive volume covering the processes by which medicines are developed, tested and approved. Regulations for drug development in the UK, EU, USA, Australia and Japan are discussed, providing relevant information for drug approval in the main continents where new drugs are developed. The chapters are written by leading academics, medical directors and lawyers, providing authoritative and in-depth information for trainees on the Faculty course, and for physicians working in the pharmaceutical industry. As well as thorough updating of the regulatory chapters, the 6th edition includes chapters on these vital new areas: Paediatric regulation Ethics Due diligence and the pharmaceutical physician

- [\[PDF\] Inter-Firm Collaboration: Valuation, Contracting, and Firm Restructuring \(Innovation und Entrepreneurship\)](#)
