

The Timepiece

Willehmina Grace Wig had a normal teenage life. She hated everything down to her name. She refused to answer to anything but Willie. When Willie's mom played classical music to wake her up, Willie thought it was going to be another normal day, but she couldn't be more wrong. She didn't think that putting on her mother's odd thirteen-hour brooch would cause trouble, but when she opened her eyes she was in Regency England! She has 13 days to figure out how to get home, but will she want to? With the help of her new friends and family, Willie has to make the choice that will determine the rest of her life.
